4th Grade News!

April 19th, 2019

Field Trips are the best!

We had an awesome field trip and the students were really able to showcase their learning during the group challenges. They also had fun presenting their finished Lewis and Clark commercials, songs, illustrations, and presentations!

Math

We finished off our Geometry unit with shape transformations and symmetry.

Next, we will begin our Fractions Unit!

As always, students are still expected to review their multiplication facts, and a review on multi-digit multiplication and long division periodically would be great. These are tough concepts and practice is always beneficial.

Work Hard. Be Kind.

ELA

Our class book will be available for families to order after Spring Break! What a great memory of 4th Grade for them to have… I will prepare order forms over break so we can begin ordering in May. Thanks!

Next Week:

Have a blessed Easter and a wonderful Spring Break!!!
When we return from Spring Break, we will stat preparing for the end of the year. There are a few special things I like doing for the students to help them remember 4th Grade, so I will send that information out soon.

Thanks, everyone!
