# PLACE VALUE CHOICE BOARD

<p><b>UNDERSTAND</b></p> <p>Make a Google Slide or a poster that <u>teaches</u> how to multiply multi-digit whole numbers</p>	<p><b>REMEMBER</b></p> <p>Roll a dice to create 8 2-digit numbers. Pair the numbers up, then multiply them. Show your work</p>	<p><b>APPLY</b></p> <p>Create your own song, rhyme, or jingle to remember the steps for multiplying 2 by 2 digit numbers</p>
<p><b>CREATE</b></p> <p>Create your own place value game that involves multiplication, division, or estimating products/quotients.</p>	<p><b>EVALUATE</b> </p> <p>Read to find out how and why we sometimes round numbers.</p>  <p>After reading, write a reflection. When might you use rounding in real life to multiply or divide? Why is it important?</p>	<p><b>UNDERSTAND</b></p> <p>Make a poster that shows the relationship between multiplication and division</p>
<p><b>REMEMBER</b></p> <p>Write a winter themed word problem that includes multiplying and dividing multi-digit numbers. Solve and show your work.</p>	<p><b>APPLY</b></p> <p>Use and rearrange the digits in your birthday to create as many numbers as you can. See if you can find any multiplication or division patterns between the numbers (fact families)</p>	<p><b>CREATE</b></p> <p>Write your own song or poem to teach how to multiply 2 digit. Make sure to include mathematician vocabulary words like products and factors. Be prepared to present to the class!</p>
