Week 13

A Note from Ms. Nelson

Week of
November 27th

Dear 4th Grade Families,

It was so wonderful hearing about all of your Thanksgiving breaks! It sounds like you all were able to spend some quality time with family and enjoy lots of yummy food. I was so happy to see all their shining faces when they returned on Monday!

We have been hard at work this week preparing for St. Nick Night, and you are all certainly in for a treat! The 4th graders are ready to put on the performance of a lifetime, and wish you all a very Merry start to the Holiday Season.

This week in 4th grade math, students learned the standard algorithm for multi-digit multiplication. This can be a tricky concept, so I encourage a little extra practice at home to help ensure they are remembering all the steps. Thank you for all the support you give them!

Know of my prayers for you and your family always!

Best,

Ms. Nelson

Upcoming Tests:

Math: Ch. 5 Test, Friday 12/8

Reading: Spelling Test, Friday 12/8

MASS 12/8

Friday 12/8 is the Feast of the Immaculate Conception, and is a Holy Day of Obligation! **We will not have our regular Wednesday Mass, and will instead celebrate together on Friday the 8th.** Our class will be the choir, and we would love to have you with us at 9am, on Friday 12/8, to celebrate the feast day! All are welcome!

Advent Circle

Advent starts this weekend, and with that comes the beginning of our morning Advent Wreath Circle. Families are invited to join us every morning in the courtyard during the season of Advent to sing and pray as we light the candles of our Advent Wreath. Fourth grade helps to lead the school in a special way, so we would love to have you there to experience it with us!
