A Note from Ms. Nelson

Dear 4th Grade Families,

It has been such an incredible Catholic Schools Week! From meeting some of the wonderful 4th grade Grandfriends who came to visit, to the fun dress up days, it has been a week full of joy! I continue to feel so blessed to teach at this school with such an amazing community. Thank YOU for sharing your children with us and trusting us with such an important task!

This week in Science we explored energy transfers by designing and building our very own chain reaction machines! The students worked so hard to come up with innovative ideas, and practiced collaborating with their peers. I was very impressed with their creativity, as well as their ability to share ideas so well with their classmates!

There are always fun things happening in our classroom, so please take a moment to read next week's WAG for a peek ahead!

**Know of my prayers for you and your family always, and enjoy your weekend!**

Best,

Ms. Nelson

## Valentine's Day!

Students are bringing a note home today about how we will be celebrating Valentine's Day! They have all been paired with a classmate who they will be **making** a gift for. The gift should be homemade and should thoughtfully connect to the interests mentioned on the buddy survey. **The Prep Plan sheet needs to be signed by YOU and returned by Wednesday, February 7th.**

Please don't hesitate to reach out with any questions!

## Upcoming Tests/Projects:

Math: Code Buster Poster Making, Wednesday, 2/7 - Friday, 2/9

Reading: Spelling Test, Friday 2/9
